

# Zyad Eweda

## Contact

**Address**  
El Shorouk, Cairo, Egypt

**Phone**  
+201033417807

**Email**  
zyadeweda9@gmail.com

## Additional Skills

- Python
- C#
- SQL
- Data Science
- Data Analysis
- Microsoft Office
- Communication Skills
- Fast Learner
- Ability to Work Under Pressure
- Ability to Work in a Team
- STEM

## Professional Summary

A Data Scientist is a professional who collects large amounts of data using analytical, statistical, and programmable skills. It is their responsibility to use data to develop solutions tailored to meet the organisation's unique needs.

Organizations are increasingly using more and more data in their everyday operations. A data scientist interprets the raw data and extracts valuable meaning out of it. They then use this information to find patterns and develop solutions that an organization needs to grow and compete.

- And that what can I do,
- Identify valuable data sources and automate collection processes
- Undertake preprocessing of structured and unstructured data
- Analyze large amounts of information to discover trends and patterns
- Build predictive models and machine-learning algorithms
- Combine models through ensemble modeling
- Present information using data visualization techniques
- Propose solutions and strategies to business challenges
- Collaborate with engineering and product development teams

## Education

09/2018 to 07/2023

**Computer Science at El Shorouk Academy**

## Languages

- |         |                          |
